

----- 1st Day, Wednesday August 29th -----

09:45 - 10:00 Welcome & Practical information - A. Thomas

Status of theory and other Experiments (30+10 min) - Chair M. Ostrick

10:00 - 10:40 Status of the MESA Project - A. Denig (Mainz)

10:40 - 11:20 The Mainz PWA of Compton scattering data below and beyond
the pion threshold - V. Pascalutsa (Mainz)

11:20 - 11:50 Coffee break

Experimental overview (30+10 min) - Chair D. Werthmueller

11:50 - 12:30 Preliminary results from CBELSA - J. Hartmann (Bonn)

12:30 - 14:00 Lunch

Status of equipment (25+5 min) - Chair A. Thomas

14:00 - 14:30 General A2 overview - P. Martel (Mainz) (25+5 min)

New Projects-I (15+5 min) - Chair A. Thomas

14:30 - 14:50 New Beamline monitors - G. Ron (Jerusalem)

14:50 - 15:10 He-3 active gas target - J. Hillebrand (Mainz)

15:10 - 15:40 Coffee break

New Projects-II (15+5 min) - Chair D. MacGregor

15:40 - 16:05 Status of the hydrogen TPC project in Mainz - V. Sokhoyan
(Mainz)

16:05 - 16:35 Test of the hydrogen TPC at COMPASS - O. Kiselev (GSI)
(20+5min)

Status of analysis projects-I (20+5 min) Chair C. Collicott

16:35 - 17:00 Coherent $2\pi^0$ and $3\pi^0$ production on the deuteron
- M. Guenther (Basel)

17:00 - 17:25 $\pi^0\pi^+$ production off the proton - S. Abt (Basel)

17:25 - 17:50 Measurement of $\pi^0\pi^{\pm}$ photoproduction off the deuteron -
S. Lutterer (Basel)

17:50 - 18:15 Meson Photoproduction off Nuclei - D. Werthmueller (York)

----- 2nd Day, Thursday August 30th -----

Status of analysis projects-II (20+5 min) - Chair B. Krusche

09:00 - 09:25 E on π^0 from polarised deuterons - F. Cividini (Mainz)

09:25 - 09:50 Measurement of $\pi^0\pi^\pm$ production from unpolarised and polarised deuterons - D. Ghosal (Basel)
09:50 - 10:15 Compton scattering: Σ_{2z} - P. Martel (Mainz)
10:15 - 10:40 Compton scattering: α & β - E. Mornacchi (Mainz)
10:40 - 11:10 Coffee break

Status of analysis projects (20+5 min)-III - Chair P. Pedroni

11:35 - 12:00 Production of π^0 - η pairs on nucleons and nuclei
- V. Sokhoyan (Mainz)
12:00 - 12:25 Measurement of the π^0 transition form factor
- L. Heijkenkjoeld (Mainz)
12:25 - 12:40 A2 Geant4 simulation: an update - D. Werthmueller (York)
(10+5 min)

12:40 - 14:00 Lunch

14:00 - 16:00 Open discussion: A2 plans for the next SFB funding period
- Conveners: A. Thomas (Mainz) -P.Pedroni (Pavia)

(maximum 2 transparencies/person are allowed to introduce new ideas)

16:00 - 16:30 Coffee break

16:35 - 18:30 Steering Committee Meeting (beam planning, manpower, ...)

19:00 Conference Dinner

----- 3rd Day, Friday August 31st -----

09:30 - 12:30 Analysis meeting - Convener: C. Collicott (Mainz)
